

EMPOWER DEV WHITEPAPER

Message From Chief

I am Lintang Sani, born with Cerebral Palsy and life with Cerebral Palsy can be very frustrating, but I never let that get in the way of achieving my academic dreams. I'm graduated from YPAB inclusive free high school and now studying law to fight for disability rights.

“Everyone has the right to get the same education as us regardless of their condition, physical condition, financial, etc. Education and development can change us for the better.”

LINTANG SANI

Background

Poor People Have Limited Assets and Capabilities

Poverty is a state of shortages and deprivations. People living in poverty are badly limited by assets and capabilities which restrict their choices and freedoms. With very few assets in the form of land, property, savings, livestock etc they are vulnerable to sudden shocks. Thus, they are always at the risk of being pushed into deeper poverty.

They are also low on human capabilities like health, education, knowledge and skills; social capabilities such as capacity to organize, sense of identity, the ability to mix up with higher classes etc; and also political capabilities like the capacity represent oneself or others, access information, form associations and participate in the local or national political processes. Combined together, all these constraints lead to voicelessness and powerlessness which result in social barriers. These conditions are conducive for sustaining or promoting poverty.

Poverty can be only eliminated effectively if people are seen and dealt with as agents of change in their lives. Charities and welfare programs often do more harm than good by making people dependent – which is actually dis-empowering!

Empowerment is needed to break free these limitations and can take many forms depending upon what the people need. Empowerment promotes sustainable development, social cohesion and political stability.

How Empowerment of People helps Reduce Poverty

Empowerment of people, in the sense of enlarging their choices and freedom to act, is much more than a means to achieve other objectives; it is a good in itself, and a desirable goal of development.

In the context of development and poverty, empowerment implies changing the environment around the poor people and helping them build and capitalize on their own attributes. Empowerment can come from a wide variety of activities that affect people's life: from education and health services to legal entitlements such as the right to food and right to information. Any initiative is empowering if it increases development opportunities and improves people's quality of life. Empowered people become agents of change in their own lives and actors of their own development.

Empowerment through Education

This is by far the best strategy particularly when focused on women. Education of girls is known to have an all round impact that goes to the future generation. Being better informed an educated woman is more likely to have smaller families, manage the timing of her pregnancies well and look after her children well. It is rightly said: when you educate a girl you educate the whole family. When gender biases are removed, and given opportunities, she can contribute to the welfare of her family economically also. The tiny Indian state of Kerala offers a great example of the power of women empowerment and people development.

Empowerment takes place in the mindset of people and is a process that takes time. It is far too easy to hand out food packets or medicines and get over with the task of "poverty management" but it is exactly that, poverty management – not eradication. On the other hand, empowerment demands working with and spending time with people; understanding their issues, showing the way out and guiding them to do that.

Empower & Development

Introducing Empower & Development Organization (Empower Dev), we work to develop well-rounded and self-sufficient young adults orphans & disabled people. We provide hard skills development, vocational and entrepreneurship training, and we also develop Marketplace Platform for them

Empower Dev is the parent of 2 Organization :

ViRST NFT

Empower NFT collaborates with world-class art teachers to support free art courses to unlock youth orphans and the disabled full potential. Empower NFT is currently developing ViRST NFT Marketplace for NFT preloved stuff donation and Arts created by orphans and the disabled Artists.

Empower Tech Small Business Enterprise

Empower Tech SBE provides orphans and the disabled with the skills, knowledge, and venture capital funding required to become innovative and successful Tech entrepreneurs.

Co-Partnership Framework

ViRST NFT

Education Foundation

Roadmap

EMVP Token

The Utility of Our Token

Preloved Stuff NFT Marketplace (Virst NFT)

Celebrity / Public Figure preloved stuff donation. The revenue generated will use to provide education and hard skills development for orphans and the disabled

Arts NFT Marketplace (Virst NFT)

Exclusive Arts NFT marketplace by talented orphans and the disabled artists.

Startup Platforms

Blockchain startup by orphans and the disabled developers.

Tokenomic

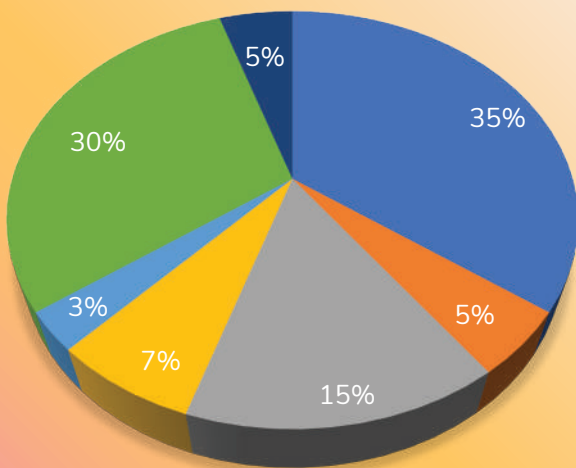

Although our multi-platforms offer great utility for our token, we value our investors by Reflection, Liquidity Pool Acquisition, and Burns.

Transaction

- 2% Reflection to holder
- 1% Liquidity Pool
- 2% Education Fund
- Liquidity Pool Locked 2 Years

Supply 1 Billion

- Burn 35%
- Project Development 5%
- DEX Quick Swap 15%
- Marketing 7%
- Founder 3%
- Presale 30%
- Angel Investors 5%

Founder vested gradually over 6 months

Our Network

Polygon Technology

Polygon combines the best of Ethereum and sovereign blockchains into a full-fledged multi-chain system. Much cheaper transaction fees and lightning-fast transaction speeds

Quick Swap

QuickSwap is a fork of Uniswap that runs on the Polygon network with much lower transaction costs

Moralis

Moralis is the premier blockchain middleware providing a comprehensive Web3 backend infrastructure

Haistar

An e-logistics company equipped with experienced management team in the industry, integrated warehouse management system, and industry-standard business process and infrastructure

SWOT Analytic

Strength Analytics

- Our project is legit. ViRST NFT is applying a Legal Entity & Ecommerce License .
- Safe utility token with Liquidity Pool locked.
- Financially accountable, all preloved stuff donation revenue audit by the public accountant
- Reputable Co Partnerships & Network

Opportunity Analytics

- Our hard skills development program will raise up the next level Tech entrepreneurs, with new skilled resources, we can develop more blockchain startup in the real sector. That's our competitive advantage

Threat Analytics

- We are a pioneer in a specific NFT market. Our brand positioning is not in the common NFT marketplace, so we don't compete with the existing market leader. We own our particular market.

Weakness Analytics

- Rome wasn't built in a day; we need time to create something significant step by step.

How will preloved Virst NFT Pilot Project succeed in indonesia?

Indonesia as the most generous country in the world (again)
World Giving Index 2021.by CAF (Charities Aid Foundation)

- The strong influence of religious teachings and local traditions related to giving and helping others
- Increase of the role and involvement of youth and key opinion leaders/influencers in philanthropic activities.
- Transformation of philanthropic activities from conventional to digital platforms.
